

Pro-Vue Interactive

The new Pro-Vue Interactive provides a whole new dimension to interactive teaching and presentation; all the benefits of an interactive whiteboard . . .

. . . **without the whiteboard!**

The Pro-Vue features integrated infrared technology which means that virtually any white (or light coloured) surface can be used as an interactive screen! From a conventional dry-wipe whiteboard, to retractable tripod screens - or simply walls, ceilings or even floors! - any surface can be used as a fully interactive screen. In addition, the size of your interactive 'screen' is only limited to the space available (imagine how big the screen could be using a simple, clear wall in the school hall?).

. . . and your interactive **projector is fully portable**. Easily stored/transported in a lightweight canvas bag, Pro-Vue Interactive can be taken anywhere your interactive presentation needs to go; whether it be room-to-room, city-to-city or even international travel (imagine trying to transport any conventional interactive whiteboard setup on your next flight?!)

Features:

- High brightness: - 2600 ANSI Lumens
- Supplied with both E-Pen & extendable E-Wand tools
- Easy installation & maintenance even when ceiling mounted:
- Integrated security features - Electric Pin Lock, Metal Lock
- Image freeze
